## Bio and Acknowledgement

Hello My name is Suli, and would also like to thank you for taking the time to download this eBook, my aim is to help you understand the importance of having and applying Tensor Ring technology to your day to day life.

I have been making orgonite for over 20 years under the name of Photon Orgone. I have been selling on eBay - <http://www.ebaystores.co.uk/Photon-Orgone-Organisation>, etsy - [www.etsy.com/uk/shop/PhotonOrgoneCoUk](http://www.etsy.com/uk/shop/PhotonOrgoneCoUk) and my website [PhotonOrgone.Co.Uk](http://PhotonOrgone.Co.Uk) and have had the pleasure in reading and hearing of some amazing things on how my devices have helped thousands of people. I now and am very pleased to have written this guide to help guide you on how to use the tensor rings my wife Shireen and her father make for me.

It's been a long time coming and wanted to make sure I fully tested each device and experimented with them before I felt comfortable in writing this guide. I was truly astounded of the variations of the devices and how they can help in virtually any area, even with 5G! (Please make sure you read about 5G below, I hope it doesn't scare you, as I have conducted lots of research and are all facts based on my experiences) I have not written on how to use these devices with 5G technology yet because I have not had a chance to test them myself so I will be updating this eBook with my findings once I can confidently give advice, all I know is the polymers (Morgellons) that are sprayed on us courtesy of the chemtrails absolutely hate them, I put a few in one of my tensor rings with orgonite underneath and watched them wriggle around like crazy, they desperately tried to get out.

Another eBook entitled 'The 5G Diet' 'How To Protect Yourself From 5G From The Inside Out' will be released shortly and I will list supplements to ingest, foods to eat and natural oils and substances to rub onto our skin to block radiation and reduce the effects. This will be released late May early June and as always will be completely free as this information is going to be required in order to reduce the effects of high levels of radiation.

I have also started publishing my newsletters on my new blog you can locate it by clicking the link - <http://www.photonorgone.co.uk/blog/>

Please sign up to my newsletter on my website as regularly have 75% sales (well at least twice a year) I also have some new exciting products coming out shortly to help shield and reduce the effects of 5G such as Shielding undergarments, underwear and hats. These will be accompanied by electromagnetic shielding devices for your rooms which will run from the mains to help dramatically the negative effects of the microwaves omitted from 5G towers.

I would also like to invite you to use this code on my site in order to obtain 35% off your purchase, simply type in 'Tensor' and the discount will be automatically applied. Not only that I also offer a reward system where 10% of your purchases will be stored as points to be used on future purchases. All you need to do is add a password at checkout in order to activate this, but if you missed adding the password not to worry, I can activate it manually for you and send a link to create a password.

## Update on 5G

The FREE 5G eBook - Out September

I cannot start an eBook without talking about one of the most dangerous technologies to be unleashed upon us. I don't really touch on 5G in this eBook because I am in the process of writing another eBook entitled 'The 5G Diet and radiation Shielding Handbook' I basically talk about supplants/Foods we now must eat for us to be able to give our bodies a chance as it's a case of damage limitation of this frequency completely from our bodies as it will penetrate our organs.

So I am in the process of making Electromagnetic Shielding devices which run off the mains supply - the bonus of these as they will link to any of my orgonite you have already purchased, portable magnetic shielding devices to put in your pockets, 5G blocking vests, hats and underwear for all ages, smart water drops which removes the frequency from our bodies (this really is amazing stuff, I have videos proving it works) frequency wristbands, shielding mesh to place in your rooms, shielding bed canopy and smart shields which will help block radiation from our phones.

I have some exciting things coming over the next 4 weeks. Please make sure you sign up to my newsletter on [PhotonOrgone.Co.Uk](https://www.photonorgone.co.uk) I will be having some live YouTube/Facebook streams shortly with my good friend Anwar Craven to talk about some of our new products so sign up to my YouTube channel and Facebook page.

## How 5G Will Connect to Our Physical Body

I have come across plenty of disturbing facts but I have also come across many ways we can protect ourselves. As I have looked deeper into it I believe I understand the purpose of why they do what they have been doing.

1. Chemtrails – These have been sprayed on us for decades and at first I believed them to be spraying diseases upon us to make us ill, but now amongst the chemicals are Nano Chips / Dots / Polymers (morgellons) – The nano dots / Chips have the capability to link to our fibres in our body in a physical level as they are surrounded by polymers which bridge the link between our body and the nano Chips which have their own radio frequency. These have all been breathed in unknowingly by us for the last few years. They measure around 0.015mm and manufactured by Hitachi. The polymers move around like worms they seem to be stimulated by sound / frequency, you can view them using a UV light, glasses and magnifier. When you come in from outside they will be all in your clothes, carpets everywhere. Many people believe this is the result of morgellons disease where they all group together in the body. Please see below the Nano dots formation under the skin on someone from a group in you can see it circled.

2. 5G Masts / lamposts – We all now know they intend to put a 5G receiver on each lamp post in every street, thus creating a blanket of radiation, not only this there will be illegal scanners and tracking devices that link to the nano chips (Polymers are needed in order to attach the chips to our physical body) which are in our body and send information back to whoever is monitoring it, from the information the chips provide they can locate us, control our mind and more than likely read them as well. This is what makes this technology so scary, but if there are no polymers and nano chips they will not be able to locate us or scan us.

3. How Do I disable / remove The Nano Chips & Polymers? – The good news is that Oregano Oil completely dissolves the Polymers, so taking 4 drops of Organic Oregano Oil 3 times per day under the tongue then swallowing will help dissolve them already in your body. You must do this 4 days on and 1 day off as its very strong stuff and drink plenty of water. I will be selling a morgellons test kit soon. To disable the nano Chips / Dots you need to use a magnetic pulser (use a sota magnetic pulser) this will make them pop and disable them, they seem to group together so there is no specific area they could group together so I recommend scanning all over your body with the pulser. I will also be making Nano buckets soon where you put your feet in the water and it pulls the nano out of your system through the pores.

\*\*\*The Polymers also seem to hate Orgonite and Tensor Rings place one in the middle of a tensor ring it goes crazy. So areas I have more orgonite and tensor rings I didn't see any evidence of the Polymers. They also don't like symbols such as Seed of life, the reasoning behind this as they are stimulated by frequency as they are programmed to be attracted to negative ones. They also seem to follow a mobile phone signal as well, I only realised these two facts in last few days as I wanted to see where they were in my house.\*\*\*

## What Is A Tensor Ring?

A Tensor Ring is a Sacred Length that was used by the ancients many thousands of years ago, much of it had been suppressed and lost but until recently these old lengths had been remembered and found again! The Egyptians used to know how to use the lengths they used the Sacred Cubit also known as the Royal Cubit in their Giza pyramids, many people do not realise that the pyramids in Cairo were used as an energy source. They realised that if you cut items to a specific length and then close that length in either a circular, straight line, cubit or a rectangular shape in the middle would create its own toroidal energy source. You can then use that length and divide it by a half, a quarter and an eighth. You can even multiply it by one and a half, twice, thrice and so on, the energy will still be the same except a lot more powerful. They can be beneficial for healing, chakra alignment, cleansing, radiation harmonisation, smart meter protection, 5G protection, manifestation, sleep, relaxation, love and many other areas. So please read on to learn about each device, how to use it and what it can do for you!

Tensor Rings generate a toroidal vortex or energy within the coiled ring (an area of turning movement where the stream takes on a toroid shape). The Tensor Rings also figure the area called the tensor field transversely the breach of the Ring. Tensor Rings are created and made from copper wire.

Inside a Tensor Ring is an unbounded resource of energy that is classified neither magnetic nor electric but its a very similar energy to orgone energy. The output of Tensor Rings is very effective in healing and beneficiary to all forms of life. It is known as a superconductor and also it neutralizes charismatic fields.

Tensor Rings are conceived by the Slim Spurling (an inventor, researcher, and internationally known and is famous as a geo-dowser with a curiosity in vision of planetary healing and metaphysics). Slim Spurling's story has been documented with two books which is very encouraging to read. Slim knew that the linear objects encompasses polarity. Slim Spurling found evidences of it in trees- and in duration of wire. He created a closed ring that lead to electromagnetic support of energy emitted vertical to the enclosed ring.

VIKTOR GREBENNIKOVSAID

Bill Reid, the partner of Slim, was there throughout the development and discovery of the Tensor Ring. This is even called by them as anti-gravity. Actually, clairvoyants see a consistent flow of energy. For those people who have no idea about this sensitive feeling, this is actually provides its kind of energy. Even Viktor Grebennikov said tries to prove the existence of CSE. It is when the organism is felt and the instruments were silent. Many people have really felt, seen and experienced this kind of energy.

Despite the scientific validation, there always emerges an undercurrent of immeasurable potential. For those of you interested in reading this article, you'll then realize and understand more about the truth. The visionaries of Spurling will continue to soar high and thus, they'll manifest in this world.

The tools associated with tensor are actually produced through the use of various ancient cubit lengths. In fact, the 20.6 inches sacred cubit was used in manufacturing the first ever tensor ring. In 2000, another measurement called lost cubit was actually discovered by Hans Becker, a genius researcher and inventor who closely worked with Spurling to do research about tensor tools. He then figured out that this measurement's resonant frequency works harmoniously with the light's speed. This only means that it can restructure energy based on a DNA level. After lots of work in evaluation and research, a new measurement was discovered in 2011. The new cubit in the tensor tools was called New Cubit which is significantly used in tensor empowerment rings as well as for other tools. It's also considered as the ultimate link between the cubit measurements trinity namely: Lost, Sacred and New.

Hence, tensor technology provides simple and natural, yet powerful solution to a lot of problems affecting all life forms in the current generation. In terms of evolution, tensor rings have initially transformed into some tools having unique designs in the course of intuitive and empirical discovery methods. Such tools include acuvac coil, Harmoniser and feedback loop.

ACUVAC COIL

HARMONISER

FEEDBACK LOOP

# TENSOR RINGS, CUBITS & HOW USE THEM

These tools are superconductors that generate positive subtle energies. However, the tools expand and adapt from time to time due to the changes within the planet as well as the energies produced by the Earth that affect every life form. There are those who tend to be more sensitive than the other when

it comes to Earth's energy. For instance, there are individuals who believe that they actually feel an energy coming right at the vortex. They create an energy field around them which originates from the center of the devices and swirls around and as it does builds up and once it gets to a certain point it blasts out in each direction, this is how they differ from Orgone devices. Orgone devices will suck in the negative energy and shoot it back out harmoised after it passes through the crystals. Ultimately its the same energy channeled from the earth and atmosphere.

ORGONE PYRAMID

## Orgone Devices vs Tensor Rings

I get quite a few questions asking me what is the difference between the different types of Orgone Devices that I sell and what is the difference between Orgone Energy and the Tensor Ring energy.

TENSOR RINGS

## The difference between different Orgone Devices

Firstly ill explain how Orgone devices work; they all have a primary and a secondary functionality. By adding different crystals to each device I can program them to do pretty much anything as each crystal has its own vibration and properties for example Shungite has amazing radiation neutralisation properties and rose quartz is great for harmonising and promoting love with this in mind I created my 3 stage process, color, crystal and orgone therapy.

I will use my Manifestation pyramid as an example of how it works the primary functionality of the 23k gold wealth pyramid is manifestation, so I will add all the manifestation, luck and amplification stones such as Citrine (adundance) Clear Quartz (manifest anything with this) Amethyst (spiritual and calming

# TENSOR RINGS, CUBITS & HOW USE THEM

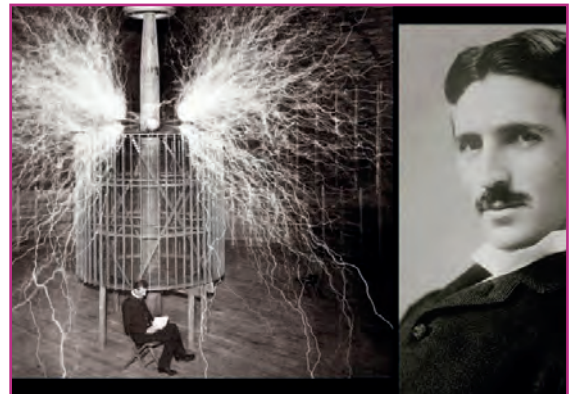

for manifestation/meditation), I also add shungite (I add this and other black stones such as Tourmaline, Onyx to everything) in order to combat radiation so this will be its secondary functionality of the device. Colour also plays a big part of deciding what each device will do The black is great for absorbing radiation and a protective colour and the gold tip is very good for manifestation/cosmic ordering.

## Tensor Rings Vs Orgone Devices

TENSOR VS ORGONE

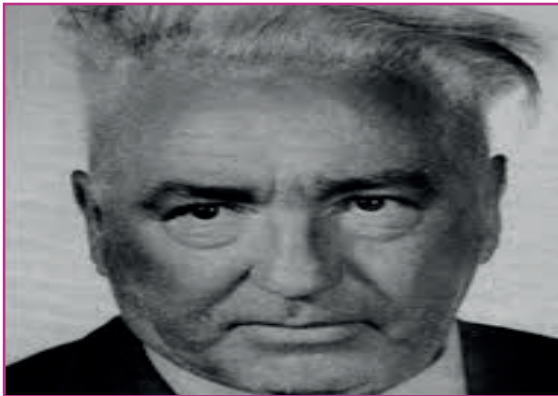

Energy created by these two devices is ultimately the same, they both vibrate at a frequency that is similar to the earth natural resonance, the orgone devices take on the crystals vibration and amplify it and the tensor rings vibrate at a specific frequency based on their length. Some tensor Rings such as the Sacred Cubit the length used to make these have been found in the Great Giza Pyramid and we all know how powerful that was when they used it as a free energy generator, this is where Nicola Tesla got his ideas from he researched the Egyptians and worked out how to pull electricity from the air using their 'Alien (gods) taught' technology.

NIKOLA TESLA

Orgonite will work as it attracts negative energy to it because on the inorganic and organaic particles inside and then once the negative energy is inside it will then pass through the crystals within its shot back out harmonized. Orgone devices were originally created by Wilhelm Reich with his orgone accumulator boxes and later adapted by the late great Don Croft whom created the cloudbusters, HHG's and Zappers.

# TENSOR RINGS, CUBITS & HOW USE THEM

WILHELM REICH

DON CROFT

The way the tensor rings work is instead of attracting the energy to it then cleansing it they create a field of a higher vibration frequency around the device so anything that passes through that field will be cleansed, certain situations (such as mobile/cell phones/smart meters/phone masts/5g masts they just need to be stuck onto the device to harmonise it) require this way of cleansing rather than the push pull technique orgone devices work with. The Tensor rings range from 1 metre to 1000's depending on which device it is, others around it and the location.

Tensor rings work on specific lengths, each length has its own frequency and each frequency has different properties (I am in the process of writing an ebook to explain each device) for example the sacred cubit length was found in the great giza pyramid, so onces measured, twisted and soldered the ends together it created an energy field within the ring or shape thats has been made with it. This field then radiated out of it.

My friend Mariana Alves Soprano who is an energy healer in Portugal and an famous opera singer has been working with Orgone devices and Tensor Rings for years, you may have seen her Tensor Ring facebook group she will be making some videos for me over the next few weeks about my Tensor Rings, how to use them, what they do etc these will be available on my youtube channel below.

## The Coiled Sacred Lengths

When you start to cut pieces of wire to particular length referred to as Cubit length, the wire will act or resonate as transformer to unique cosmic energies and then draw this energy to the wire. There are numerous different Cubit lengths utilized by modern civilizations through diverse ages. Physicist Slim Spurling stated in February 2005, Slim that he had found out that old Egyptian Royal Cubit with measures 54mm+/- 2 mm is more useful for bio-physical energy.

RING

This formed a non-polar pole of light. The next condition, which is the second condition, for the formation of a functioning Tensor Ring tensor is the span of the wire. A lot of people is familiar and heard of the Cubit that is defined as a component of measure as of megalithic structures approximately the entire globe. The exacting Cubit span for the Spurling Rings came from the Great Pyramid of Giza.

GIZA PYRAMID

He, Slim Spurling referred to the Sacred (or the Royal) Cubit length as included in the one ten-millionth of the polar radius of the entire world, and having a association to the mass and radius of the hydrogen atom. Slim Spurling's widow have accessed to another functioning length. It was postulated and stated that there are actually 64 different lengths of cubit, but people are aware that there are only 19 cubit lengths. These different cubit length are all closely guarded. The design of the Tensor Rings is based on

# TENSOR RINGS, CUBITS & HOW USE THEM

ancient knowledge and Sacred Geometry- intended to be beneficiary to all mankind and different life forms.

The Lost Cubit (596.6714 mm or 23.491" of Hans Becker is found to be more helpful and useful in mental and emotional energies. Since two coils are being added to bigger generators, it has been decided to create a single coil based on the length of Royal Cubit and second coil mainly based on the length of the Lost Cubit of Hans Becker.

Any multiple Cubit unit length will make the desired outcome. Individuals can also utilize a  $\frac{1}{4}$ ,  $\frac{1}{3}$  or the  $\frac{1}{2}$  fraction of cubic length to provide them with the same resonant effects however, typically not as strong as the total length of the cubic unit. Depending in the gauge of wires that were utilized, I can typically fit a triple or a double multitude of cubit to the HHG or TB.

HHG & TB

When the wire is coiled, you actually trigger orgone (*Chi, Prana – has many different names*) energy into spiral movements. If coil is being laid out on the flat plan, energy will be scattered vertically and laterally. If the coil is stretched to vertical plane, one will get vertical and cone-shaped spiral on top of spiral in unique vortex fashion.

## Sacred Geometry & Tensor Rings

The word “sacred geometry” is frequently used term pertaining to architectural forms. Sacred geometry is applied on those shapes, patterns and proportions that tend to reoccur consistently in nature. Ancients have observed the endless repetitions of similar numerical relationships and have given geometry one divine significance. The entire universe is said to be shaped based on given geometric values. The patterns arrange cells in the human body and then define the distances between planets and stars.

Essence of the spirit can actually be encoded in numbers and measures. These given measurements are linked to the mathematical constants. The slim collected proofs for the broad existence of cubit lengths cited and recorded in ancient world. Sacred Cubit tends to impact the three physical or dimensional conditions and then define solid matter. This got a standard resonant frequency of 144 MHz. This given length carries particular wavelengths and frequencies that restore regulatory bodily functions and promote healing.

Lost Cubit on the other hand has natural resonant frequency that measures 177 MHz. Whatever it is that people think becomes real. Their consciousness and thoughts create fields and the ancient can attest to this. This Lost Cubit also has to do with physical permanence or longevity. This might contribute to the ability of DNA to change at will. New Cubit tends to sustain mental clarity.

## Rings and Tensor Fields

Ring Technology, which was rediscovered in 1980s to 1990s by Slim Spurling was supported by exciting and interesting research that is presently receiving increased attention. Rings are said to be closed loop coils and when made accurately based on particular specifications can amplify subtle energies hundred times. Rings are originally known as Light Life rings and now widely known as Tensor Rings. These devices also have intense impact on living biology and water.

As mentioned, these rings make toroidal vortex, which is known as the region for rotating movements where flow usually takes in a toroid or doughnut shape. The movement at the center of this doughnut continues to rotate round and through. Individuals who perceive subtle energy often describe beam of light or energy which pass through the tensor ring travelling for considerable distance on both directions. This energetic beam is capable of organizing spaces within the column. This also includes organizing water’s molecular structure. When water is passed through the ring, its molecular structure turns out to be more organized. The longer this sits within the column, the more refined this structure will become.

# TENSOR RINGS, CUBITS & HOW USE THEM

Many individuals including the Dancing with Water authors put their water on a Tensor Ring overnight or even longer. They also position this around showerheads and faucets even on water lines. As the water structure becomes organized, chlorine is being released and pH becomes balanced. The taste of the water also completely improves. Other improvements that seem harder to quantify augment the energy of the water.

RING ON MY WATER TANK

One of the means Tensor Ring augments the energy of the water is by paramagnetism influence. Philip Callahan, a paramagnetism expert stated that Tensor Ring shows paramagnetic value several times higher than anything that is ever tested. This simply means that this ring triggers some elements in water to spin into their high-spin state known as ORMUS. This got tremendous impacts on the energetic components and molecular structure of water.

Proof for the existence of ORMUS is apparent in this special experiment. Place water of equal volumes in identical water containers on the balance scale so that they are precisely and equally balanced. Place tension ring over one water container directly. After 24 to 48 hours, the container with the ring on top of it turned measurably lighter( this is said to be the difference in weight and dependent on the amount and type of salt and mineral that water can possibly enter on high-spin state.)

Read the third chapter of Dancing with Water in order to clearly understand how ORMUS or high spin state can minimize element's weight. Aside from their effects on water, these rings are also used in augmenting vitality and plant growth. Tensor Rings are also used in reducing pain and inflammation and speeding up healing. No claims can certainly be made. Nevertheless, if rings create coherence or organize space within their active and energetic column, this will explain their ability to minimize inflammation and pain as well as their ability to enhance healing response.

# TENSOR RINGS, CUBITS & HOW USE THEM

## Benefits

Slim Spurling and his wife Katharina along with a dedicated team have successfully created some new tools. Some have various applications which significantly help in coping up with changes inevitably happening in this planet. There are actually numerous uses of tensor ring such as the following great advantages when using these tools:

- When the ring is put under the bed, it effectively neutralizes negative fields of geo-pathic origin.
- The ring can also be utilized to increase meditative state.
- It can effectively clean an aura when slowly lowered from the head going down to the foot and reaches the back part of the body.
- It can mend bones in a faster way.
- It can potentate water by setting the bottle over the tensor ring.
- It can keep the swimming pool clean by placing the ring at the pump.
- It can also be used in shower head.
- Placed within the vesicapiscis form right under the massage table.
- It can efficiently increase gasoline performance.
- It also relieves joint pains.
- Ideal for wellbeing and over health.
- It reduces stress.
- Effective relief from mental as well as physical pain.
- It enhances healing process during illness or injury.
- It decreases stress due to EMFs or harmful electromagnetic field.
- It can perfectly energize water.
- Good for the environment
- Reduces pollution in the surroundings.
- It can purify water.
- It can even harmonize the environment and the community as well.
- Can be used as relentless storm abatement.
- Ideal to use in agriculture
- It can improve soil quality.
- Helps in production of quality and larger crops.
- Increase plant growth
- Can also be used in pest and insect control.

# TENSOR RINGS, CUBITS & HOW USE THEM

Harmonisers seem to boost human consciousness through pulsing cosmic L-field or light field which possess positive harmonizing energy. A person's energy is actually set in motion which continues along with its presence. Everything and everyone can actually get affected but in an optimistic manner. In fact, the more the world has light in it, the more chances it can support increasing people's consciousness.

The tensor ring actually possess infinite energy source which is not magnetic or electric. The output produced provides benefits and healing to living things. It's a superconductor that effectively neutralizes any magnetic field whole bringing coherency in terms of chaotic situations. It also produces measurable effect of gravity.

## Water Application

Paramagnetism expert Phillip Calahan said that tensor rings can exhibit paramagnetic value which is potentially greater than any object tested. The smell and taste of chlorine diminishes in two to three hours once the ring is placed below or around the water container. It also improves smoothness as well as taste while the water is re-structured. PH levels decrease after twenty-four to forty-eight hours.

Just like other water-energizing devices, detox effect can significantly happen with higher energy levels. However, it can reduce appetite and sleeplessness when continuously used.

## Potentized Water

Tensor rings actually augment energy even to an ordinary glass of water through missing electron replacement although it tends to strip whenever water flows throughout the pipe. The potentized water can emit light that is noticeable by people. Question is how does this thing glow? Actually, the tensor ring amplifies the water's energy in order for the outer electrons to quantum jump. Hence, the electron that is displaced isn't a steady state which actually needs to go back to its original location. When electrons fall back, it emits photon so there is blue light seen. The potentized water refers to detoxicant which is gradually taken in higher quantities. An individual must never drink excess amount of this because it can upset the stomach. However, there are no claims made but it was reported by a middle aged woman that taking three to four glasses a day has significantly reduced her gray color hair, returning to black color.

## The Water and Tensor Rings

Water needs to change since an oxygen atom and 2 hydrogen atoms should be rearranged through internal geometry to effectively conform new energy levels. The light fields appear to calm the cell membrane in order to enable nutrient, waste and oxygen transport within and outside the cell.

# TENSOR RINGS, CUBITS & HOW USE THEM

## Comfort Application

Reports suggested that it can calm server nerve problems such as in shoulders, knees, thumbs and wrists. It is also known to soothe tension and swelling of injuries. It is used to relieve pain while enhancing the healing ability of the body in terms of illness or injury. The ring can also remediate EMF's harmful effects.

## Other Applications

It can effectively enhance plant vitality as well as growth. When an object is placed in an energetic column, it can amplify the vibratory energy of the object. It can be added or synergized with other energy forms of healing as well as tools for healing. It cleanses crystal while removing static from fabrics. Tensor rings can draw cosmic light and energy force with effects focused on double sided ray of light.

Known as the length measurement, sacred cubit can also be referred to as Pyramid Inch which is used in megalithic world. Tensor rings also create energy vortex which shines out like invisible beams of flashlight. Coining the black hole term, John Archibald Wheeler discovered a mathematical theory of tensor fields that is actually found within the ring.

According to the Sacred Geometry principles which are significantly utilized in the Great Pyramid, light has harmonic frequencies as well as superconductivity. A scientifically certified inventor and researcher Hans Becker discovered that Spurling ring can oscillate at 144mhZ which is a harmonic with the speed of light. Hans also stated that the ring can be a simple yet efficient energy source which is gathered and condensed within the space. Spurling has been channeled in the construction of such tools through the help of other light and love beings.

## Properties and Science of Tensor Tools

The tensor fields inside the ring are actually as greater as the ring's circumference which significantly extends throughout the column up and down but for how far is not yet determined. However, Spurling measured the effects at 10miles. Tensor rings are harmonics of cubits and differ in size.

Ring technology also represents a science which is modern and ancient at the same time. The 20.6 sacred cubit is a controlling element within the construction. It's in fact the yardstick which is used to build the "Great Pyramid". However, Lost Cubit appears to be larger unlike sacred cubit. Such measurement has been derived from Earth's equatorial and polar circumferences sum after being divided into light's speed.

# TENSOR RINGS, CUBITS & HOW USE THEM

GIZA PYRAMID

Bigger rings may be used in clearing and meditation within specific energy fields. They can even be placed within the body to heal injured areas. People can also put it around a glass of water, plants, faucets, and food. The ring can also be buried to effectively eradicate harmful power line grids or what is commonly known as Hartman Grid.

When it is placed at the car's back seat, the ring can infuse the spine while keeping it unharmed even if the car passes through geo-pathic stress lines. The coil also uses similar principles just like the ring although it has a more induced energy flow. Since the coils draw negative energy and transmutes the energy into positive one, it is highly effective in reducing pain.

On the other hand, feedback loops refer to omega shape and smaller diameter compared to the coil which creates higher velocity of energy flow. Since the loops are pulling out more energy at specific frequency, say for example pain, while returning it to hundred eighty degree Celsius, the original frequencies are actually cancelled.

However, the Harmonisers are the combination of the coil and the ring. It significantly emits cosmic light fields having positive output. The 3 rings' configuration within a vertical level surface and coil at the center will provide toroidal or spherical field. Hence, Harmonisers take tensor energies out while radiating great distances.

The Harmonisers in the environment decrease the home's electromagnetic interference, purify the air within the house and improve outer environment. The town, neighborhood and yard within a 15-mile radius will take advantage of an individual's ring at home. Larger agricultural Harmonisers have 65-mile influential sphere while personal Harmoniser within a pocket or around someone's neck has a radius of 5-7'.

Further Observations Benefits to the surrounding area

Among the best observations that you can notice include:

- Enhanced plant vitality and growth
- Diminished smell and taste of Chlorine in two to three hours. This is especially after the ring is placed below or around the water container.
- Improved taste that occurs in re-structuring the water

Always remember that the water changes from very acidic pH to slightly alkaline or neutral. This is in the case that it is left standing in the ring for about twenty-four to forty-eight hours. People must take the time to consider healing as an important solution in this modern day world. As compared before, humans now experience chronic illness, severe pain, and high stress levels. This is due to the reason that the systems of the earth are out of balance. They are not proportion that result to the onset of huge natural disasters.

In order for you to understand it better, quantum physics has revealed that everything is light. With light, there is energy and science has proved it far that all energies are interconnected. All lives are connected and united towards a higher level of balance and harmony. With a high and low vibration, energy continues to increase. This even gets its higher vibration.

All of the energies that can be found on earth are either negative or positive. They can also be detrimental or beneficial. This is in regard with the effect they have on the earth. Unluckily, the modern world is flourished by all of the negative energies. These are brought by the pollution of the water, air and soil. Even the increase in EMF's is also observed to the environment. The earth is also surrounded by the negative energy grid. This has its huge impact to the whole life and humanity.

All lives and all energies are intertwined. This concept is a must-have concept that should be understood completely. This also highlights the true power of bringing harmony to an area. This can also offer a huge impact to the whole life and humanity.

For instance, if only people can improve the quality of the soil, the plants will then grow completely. They would go back to their natural state. They will become full and healthy because of their beneficial nutrients. These were once lost because of soil pollution.

The produced goods are only equal to the organic goods. These can also be purchased in a health food store. All people would also get the opportunity of benefiting the most from the natural quality of crops. Apart from it, they can further avoid many different health issues from the continued consumption of unhealthy products that are grown in pesticide-ridden and depleted soil.

## Pollution Clearing and Tensor Harmonisers

The water that is treated has its lower freezing point. In fact, it also has its different ice structure of crystalline as compared to the untreated water. You need to consider two identical glasses of ice water. Then, you need to place them properly. Put one of the glasses in a ring and the other at a distant. Then, keenly observe the one that melts first. Apart from it, there is one benefit to get from the tensor field. This is none other than the electromagnetic and geo-magnetic field abatement.

## The Cubits, Sacred Geometry and Tensor Field

The ring's circumference is ratios of new, lost and sacred cubits. They are in fact derived from geodesic ancient studies of the relationship of the earth, moon and sun. Sacred cubit is the standard length that is used in constructing the Chamber Pyramid of the King.

## Different Cubits Have Different Properties and Resonate at Different Frequencies

TENSOR RINGS

Each cubit has a specific rate of vibration this is called the cubits frequency if you use a specific fraction of the cubits length it will still resonate at the same frequency; for example if you take the lost cubit below this resonates at 177 MHz the full length of the lost cubit is 20.6 inches if you twist and join together it will resonate at 177 MHz. If you used  $\frac{1}{2}$  of the 20.6 inches twisted it together and joined in the same way it would still resonate at 177 MHz the reason is because of the length has very special properties and will always resonate at the same frequency but only if cut in specific fractions. This goes for all of the other cubits available if you use a full length of sacred cubit it will resonate at 144 MHz and it will also resonate at 144 MHz if you only use  $\frac{1}{2}$  of that cubit.

### Lost Cubit

This was historically identified by Hans Becker in 2000 in the course of his work with Slim Spurling. Becker stated that Lost Cubit is formerly unrecognized Cubit length which might have been omitted deliberately from oldest records because of its powerful and impactful significance. This vibrates at 177,000 Hz (177 MHz) and because of its ability to resonate with earth energy and cosmic energy frequency, Lost Cubit is said to have properties that might affect longevity and DNA. The 20.6 inches Cubit length is utilized to create both Tensor Rings and Triskelion. These can be purchased together with exclusive introductory kits from our online store. The 177 MHz Cubit, also known as the Lost Cubit was discovered originally by Slim Spurling and Hans Becker. The length of this Cubit was made of a specific mathematical formula. The Tensor Field with a frequency of 177 MHz is recognized for its exclusive connection with emotional and etheric bodies.

# TENSOR RINGS, CUBITS & HOW USE THEM

This frequency works on the Mental, Emotional, Physical and Etheric aspects. The Lost Cubit is a more complete frequency than the (Sacred/Royal Cubit) 144 MHz, and is stronger and more powerful. Please see a list of uses below:

- Calming, soothing, good to sleep with under the pillow.
- Great for meditation; Lay down and place on forehead. This will also Balance brain hemispheres.
- Plants grow happier with this frequency; Place one in your plant pot.
- Element Earth and (A) Ether.
- Perfect for troubled environments, for schools. Place in child's satchel or under/inside pillow and each corner of each room.
- It has a horizontal energy.
- Balanced Feminine and Masculine Divine energies.
- Works the 4th and 6th Chakras; Place directly on them during meditation.
- Can be worn by itself, together with the 144 MHz (Sacred/Royal Cubit) and also with the 188 MHz (Empowerment/New Cubit).

## Empowerment/New Cubit

188 MHz synergizes well with the 144 (Sacred) and 177 (Lost Cubit). Resonates with and decalcifies the Pineal, helps release Programs and Beliefs. Brought to us by a Master Dowser. Was also given to Slim Spurling before he passed; his widow calls it the Empowerment Cubit. 28.85748 inches ~ 73.3 cm more-over, the 188 MHz Cubit synergizes perfectly with a 177 and 144. This also works well with Pineal and helps in releasing beliefs and programs.

This Frequency works with the Spiritual and has many uses listed below:

- Synergies well with the 144 MHz (Sacred/Royal Cubit) and 177 MHz Lost Cubit; Can be worn together as a pendant.
- Essential in healing therapies.
- Connects with the "Invisible" Spiritual Guides, Protectors, Cosmic Healers, Angels, & Earth Elementals.
- Divine Feminine Energy.
- Earth Element is Fire.
- Perfect for people that use their voice a lot, like singers, teachers, public speakers, etc.; Place directly on Throat chakra during meditation or as pendant.
- Works the 5th and 6th Chakras; place directly on them during meditation.
- Must not be worn by itself; needs to be together or with one of the 2 others frequencies, Sacred/Royal, Lost Cubit or with both at the same time.

## Empowerment/New Cubit

The 144 MHz Cubit, also known as Royal or Sacred Cubit originally came from King's Chamber of Great Pyramid. The Slim Spurling's Cubit is widely recognized for its function mainly on the physical. The said Cubit creates standard Tensor Field Generator utilized for effective environmental clearing and amplifying intentions. Resonates at 144 MHz and comes from the King's Chamber of the Great Pyramid. Undeniably, the most crucial reference for Royal/Sacred Cubit length is none other than the King's Chamber in Great Pyramid. This is best preserved, accurately shaped and exactly measured of all known data. The Cubit in Great Pyramid is about 523 mm or 20.62 inches. According to Hans Becker, which is also astrophysicist, resonant frequency of Sacred or Royal Cubit is about 144,000 Hz which is viewed to be harmonic of the light's speed. This is also considered by some to be a cosmic frequency antenna. Slim Spurling's Cubit and Known for its work in the Physical. The length of a full cubit is 20.63 inches ~ 52.4 cm This frequency works on all Physical aspects on Earth and has many uses listed below:

- It helps to materialize ideas, so can be used with Meditation, Manifestation, and Visualisation & Cosmic Ordering.
- Attracts abundance.
- It has a vertical energy field. This depends on how the ring is positioned; if it's on the floor on the top of the head the energy released is vertical; no matter how is positioned the energy flows from the center of the ring in a straight line.
- Divine Feminine energy.
- Helps Grounding.
- Represents Elements Water and Earth.
- 1/8 cubit rings and infinite hearts are perfect for children and pets. Place on pet's collar or as a bracelet, key ring or pendant for child.
- Works the 4th Chakra and connecting beings to Mother Earth. Place directly on Chakra whilst meditating.
- Best to eliminate maleficent energy grids on ground – Hartmann & Curry Grids. Put 4 spheres (1/8 or 1/4 cubit) in the 4 corners of your bedroom - 2 of the 144mhz and 2 of the 177mhz – and 1 in 188mhz at the center of the room, floor or in the ceiling; this will cancel the geopathic stress lines (Hartmann and Curry Grid, ley lines, water lines, etc.); if you wish you can put inside the 4 corners spheres a piece of Black Tourmaline or Shungite Crystals and in the center sphere always a white crystals like Selenite;
- 1st frequency that everybody should wear.
- Can be worn by itself or together with the 177 MHz (Lost Cubit) and also with the 188 MHz (Empowerment Cubit Also Called New Cubit) on a pendant.

## Solomans's Cubit

(333 MHz Linked to King Soloman), Changes the colour of sound and works well with Sound Healing. Brought in by a Master Dowser. It seems it may have a relation to King Solomon's Temple. Works as a Straight Line Cubit.

39.3131568 inches ~ 99.8554 cm

## Black Cubit Straight Length Unjoined

21.352" or 54.153 cm Both Cubits above are used in Starkeys and Starbursts, and work similar to Tensor Fields in their electro- and geo- magnetic restructuring. These Cubits can be utilized in fractions of 1/3, such as 1/3, 2/3, 1, 1-1/3, etc.

## Energy Cubit (764 MHz - I call it the Energy Cubit as it is very powerful)

One side of the 27" Ring has a Black Whole, or absence of energy, while the other side creates a tornado style field. The tornado field always travels toward magnetic North. You can change the "polarity" if the output simply by intention. Possible uses of teleportation and tornado wrestling. Pulls in and transmutes dense energy. Brought in by a Master Dowser. 77.55836 inches ~ 196.9982344 cm. 764 MHz cubit is one side of 27 inches ring with Black Whole and lack of energy while other side makes a field that is tornado style. This tornado style field usually travels to magnetic North. One can actually alter "polarity" only if outputs are simply by intentions. Slim revealed potential uses of tornado wrestling and teleportation. This also transmutes and pulls in dense energy. It is just probably fair to say that the world might be ready for the Cubit now...

## Galactic Cubit

When speaking of Galactic Cubit, this includes two given dowsers connecting to source and asking for Cubit length which they could utilize. They got something that functions unlike other tensor rings. Galactic Cubit links with higher soul self then works with all aspect of the soul. In every twist, you will locate and find Tube Torus. Every person tube, torus attracts negative and positive energy delivering out non-dualistic energy, which is a complete and whole energy. These small toroid's also serve as the DNA scrubbers.

Ascension Ring, also known as Light-Ring is a robust tool that manifest from Galactic Cubit. This tool promotes connections of soul with light. Ring technology was rediscovered in 1980s to 1990s by Slim Spurling. This technology is backed by thrilling research which is presently getting considerable attention and enthusiasm from people. Rings are closed and durable loop coils. When rings are made to particular specifications, these are known to amplify restrained energy several hundred times. Rings are originally termed as Light Life Rings and presently, these are known as Tensor Rings. These are simple devices with powerful and intense effects on living biology and water.

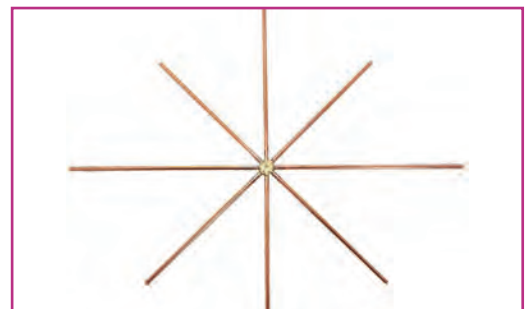

# TENSOR RINGS, CUBITS & HOW USE THEM

Tensor Rings are known to create toroidal vortex, a particular region of rotating movements wherein flow gets in doughnut or toroid shape. The movements across the doughnut's centre consistently rotate through and round the doughnut. Common samples of this particular phenomenon are bubble rings and smoke rings. A completely interesting and informative video reveals toroidal vertices created and produced by volcanoes, whales, dolphins and many more.

Tensor Rings forms tensor field all across the ring's opening. The idea of tensor field was comprehensively described by John A. Wheeler, a knowledgeable physicist. He also outlined the mathematical equations and clearly explained their known existence. Wheeler said that if you can view a tensor field, you will notice that this resembles a thin film which forms when the loop is carefully dipped on soapy liquid. The tensor field energy is sometimes not completely understood. Some consider this field as a distortion in space, gravity and time.

## Remet Cubits

14.583" or 37.441 cm this is the Cubit Bill Reid uses in his version of the Starburst design.

## The Viking Cubit

The Viking cubit was discovered by Maurice's friend Godfrey in an old book about the history of the Vikings. He found this measure repeated throughout the book and was intrigued by it. Godfrey passed on this information onto Maurice and he informed told Mariana Alves Soprano. She used her expert dowsing abilities to inquire about it and they both decided to try out this lost and forgotten maybe even purposely lost sacred length in a tensor ring device.

The energy of this Viking Cubit frequency embodies the Sacred Feminine, subtle, beautiful, gentle energy that carries the secret spark of life like a white light-pinky-yellow beam of light that has no beginning and no end, with a constant infinite flow.

The Viking Cubit is very good for sleep and emotional disorders, muscle disorders and it has great results on tooth pains, simply place under a pillow or on the area of pain to find relief. It has being tested by Maurice, Mariana and many other clairvoyants, channel healers and patients in Portugal and Netherlands with spectacular results! You must feel if this is the right frequency for you and is compatible with all the other frequencies (Cubits).

# TENSOR RINGS, CUBITS & HOW USE THEM

Tools that can be made out this frequency, cubit fractions and combinations:  $1/8$ ,  $1/4$ ,  $1/2$  : Tensor Rings; Acuvac Coils; Tensor Generators, Gaia Spheres (6 rings), Tensor Field Generators (4 rings), Harmonisers, Seed/Flower of Life; Infinite Hearts they can be placed in Pockets, used as Pendants, taken with you in travel and placed around the home .

## RaMu Cubit

The RaMu cubit was discovered by Mariana Alves Soprano who is based in Portugal and is multi-talented and trained in the following Master Holistic Healing techniques Reiki, Acupressure Massage, Tuning Forks Sound Healing, Homeopathy, Crystal Therapy, Alchemy, Aromatherapy, Time Travelling, Researcher and Professional Opera Singer (Composer, Writer & Pianist) while on vacation in the Netherlands on October 21st 2015 excited by the discovery of the Viking frequency immediately jumped over her old books about the Lost Continent Lemuria, having the feeling that would find something there. After searching in the books from 10pm till 3 am nonstop, she ended up with a headache and heavy eyes and no measures! The next morning she jumped out of the bed excited with 2 possible junction numbers for the next frequency that she saw in her dreams. These numbers were in fact all over the book about Lemuria and were engraved on her mind and the right combination came to life!

The RaMu Cubit is by far the strongest of the 3 new discovered frequencies. It has a Vertical energy, creating an endless and unbreakable torus energy field. It clears all Past, Present and Future in many dimensions and inter-dimensions. This frequency creates the strongest Harmoniser out of all the 12 cubits available today! The RaMu Cubit has a more Divine Masculine energy this means it is perfect for channel healers; placing one ring or a tensor field generator on the head connects you with the speed and power of a thunder ray of light activating you to work in a blink of an eye!

It has been tested by Maurice, Mariana and other many clairvoyant, Spiritual channels, Holistic healers and patients in Portugal and Netherlands with spectacular results!!

The RaMu Cubit is compatible with all the other frequencies.

Tools that can be made out this frequency, cubit fractions and combinations :  $2/3$ ,  $1/8$ ,  $1/6$ ,  $1/4$ ,  $1/2$ ,  $1/3$ , and so on: Tensor Rings; Acuvac Coils; Tensor Generators, Gaia Spheres (6 rings), Tensor Field Generators (4 rings), Harmonisers, Seed/Flower of Life; Infinite Hearts they can be placed in Pockets, used as Pendants, taken with you in travel and placed around the home.

# TENSOR RINGS, CUBITS & HOW USE THEM

## Sacred Continent Cubit

The Sacred Continent cubit is another lost and forgotten cubit discovered by Mariana Alves Soprano on October 26th, 2015 in Portugal. After her 1st discovered frequency, she had a dream where one of her Guides told her to keep working on the frequencies because she needed to find more frequencies and that now is the right time. This measure it's Mariana's studied combination of the measurements of "The Mound Builder's Calendar Stone" found in the Ouachita River, Hot Springs, Arkansas, USA. The Mound Builders of North America were a prehistoric race connected to Mexico and MU, The Motherland of Man, they left engraved in stone the same knowledge about the Sacred 4 Primary Forces of Mu, before Mu or Lemuria sinking, they crossed Mexico and set up their home in Arkansas.

This frequency has a Yin-Yang balanced energy, works horizontally and it's linked to the Water Element. It works like a massive All Seeing Eye. It gives a full perspective, in all directions, dimensions, times and spaces of a certain situation in all its layers. If you have "The Vision" you will be able to see all that is hidden and you are protected inside of a bubble, the bubble is the frequency. It's very good to give peace to the heart and to sleep with. It is also very powerful for long distance energy work. Sacred Continent frequency has a weak Torus but has a stronger amplitude field, so it "marries" perfectly with RaMu (Which has a strong torus field) and these two are the best ones to create a Harmoniser. It is compatible with all the other 12 frequencies available.

Tools that can be made out of this frequency, cubit fractions and combinations:  $1/8$ ,  $1/9$ ,  $1/6$ ,  $1/4$ ,  $1/2$ , and so on: Tensor Rings; Acuvac coils; Tensor Field Generators (4 rings); home sizes Harmoniser Frequency Antennas, Infinite Hearts, Seed, Flower of life & Pyramids.

The Viking cubit when paired with RaMu and Sacred Continent Cubits flows magnificently through the Energy Torus created by RaMu and expands its pure God/Goddess love through the Sacred Continent Cubit.

## Specific Product Uses

**Heddeka Triskelion Coil Spiral of Life Triple Spiral = Twisted and non-twisted.**

HEDEKA COIL

The Heddeka, Triskele or Triskelion, also referred to as Spiral of Life or Triple Spiral is an old symbol with intense and powerful connection to the water. This has an incredible ability to neutralize harmful energies. Many believed that this was the ancient purpose. When created of gold, silver or copper, triskelion makes biomagnetic and bioelectric energy flow which is based on sacred geometry and mathematics.

Placed in or around, the triskelion increases the water vibration. This also creates active and energetic vortices which bring the water's molecular structure. Triskelion can be utilized alone or in combination with some structuring techniques outlined in the 11th chapter of *Dancing with Water*. Triskelion can also structure the water with just few hours but this still depends on the size of triskelion and the size of water container.

Authors of *Dancing with Water* used triskelion everywhere. This is used in structuring tools and devices, water containers, on their pockets, in gardens, around plants and many more. Watch the video of energetic movements with triskelion filmed using Gas Discharge Visualization or GDV.

- Beneficial in sacred/royal cubit (144 MHz) and in Viking cubit.
- Women get more energy balancing during PMS cycle when wearing a twisted one as a pendant or by placing it around the 1st and 2nd chakras.
- Energizes all drinks, water being the main one.
- Good for people that lack of Element Water on their astrological chart.
- Both Twisted and non-twisted are good for water; hang out on a home garden for example to balance the water in your garden, will also help plants grow.
- Put one under a therapy table, aligned with 2nd and 3rd chakras to enhance the healing; if you want you can add a clear glass with water on the top of the heddeka, under the table this will help draw and absorb all the toxins. Make sure you throw the water away after use.

# TENSOR RINGS, CUBITS & HOW USE THEM

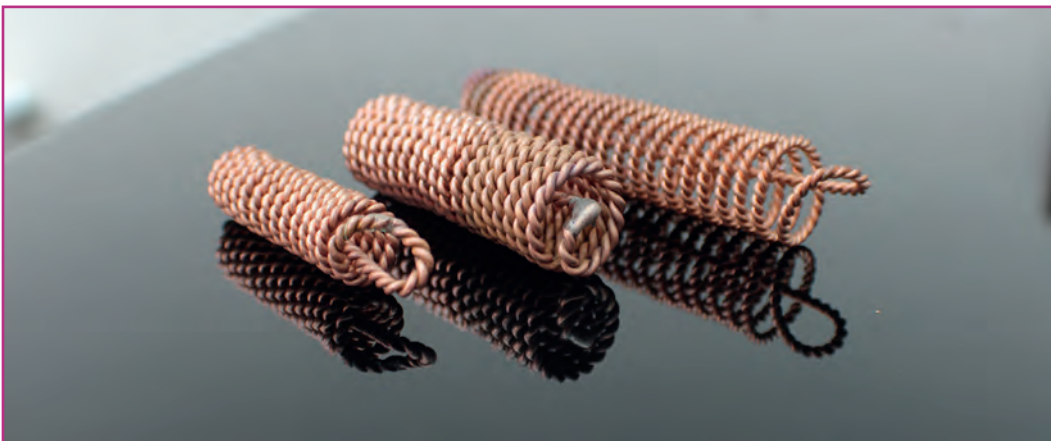

Tensor Harmony Coil With 1/8 Tensor Field Generator and Infinity Heart - Sacred cubit 144 MHz

HARMONY COIL

- This can only be for personal use only. This pendant is personal it is for you only, not to be used it to heal for example. You can hang out in a wall, or car, but is more effective when a person wears it.
- The tensor coil embodies the masculine divine energy; the tensor field generator (sphere) embodies de feminine divine energy and the Infinity Heart bonds them together, connecting the person to Its Sacred heart and the Heart of The Universe.
- Creates an energy flow of infinite abundance.
- Wear it in a way that it aligns to the heart chakra.
- It embodies all the capacities/abilities of the 3 tools in separated in one super powerful personal tool.

Tensor Ring harmony Coil 13 Spiral 4 5/8" Acuvac - Sacred Cubit 144 MHz, Full and ½ Cubit

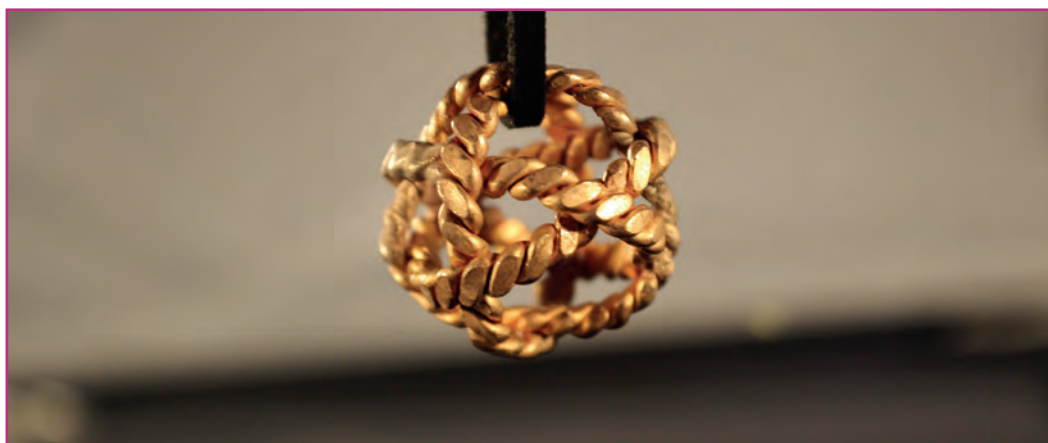

ACUVAC

- Can be worn as a personal pendant.
- Can be used as a Dowsing pendulum to clear energy blockages in people, animals, spaces, etc.
- Excellent for Astral travel and dream work. Just put it next to you in the bed; under the bed or on the bed when you go to sleep must be next to you.

# TENSOR RINGS, CUBITS & HOW USE THEM

- Aligning the chakras holding one end of the coil and pointing the other end to each chakra, making clock wise movements until you feel the chakras are cleared; when there's stagnant energy in a chakra or other body spot, you can feel the side of the coil that is near the body, pushing the tensor coil down.
- Restructures harmful EMF's in a person, by creating a Tube Torus Field around the body.
- Grab a Heddeka coil, place the tensor Harmony coil in the center, place this inside of a Tensor Field Generator to create a personal harmonizer or to get downloads of cosmic info by connecting with your higher self when you meditate. You can also put it under your bed to have a better sleep or use it under a healing table to enhance the healing session.

## 1/8 Tensor Generator Pendant or Dowsing Pendulum 144 MHz Sacred Cubit

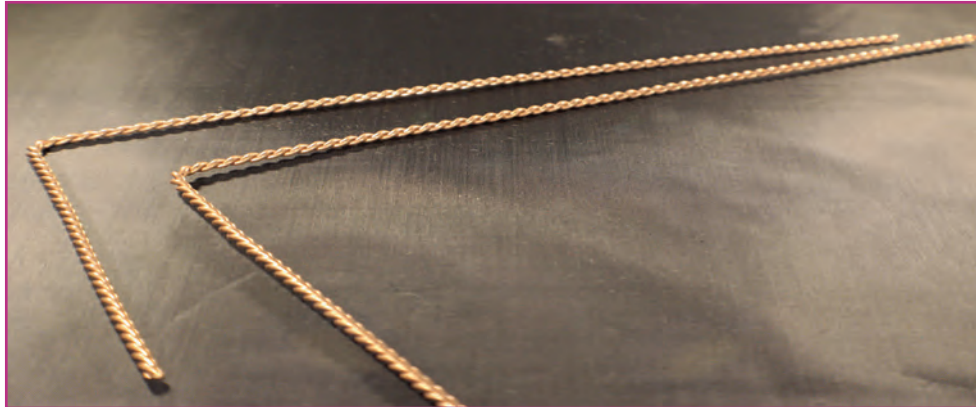

TENSOR GENERATOR

- Can be worn as a personal pendant.
- Can also be used as a dowsing pendulum and or help to clear pets, person auras or to help moving the energy in a stagnant energy place.
- Add 1 in the 4 corners of your bedroom and hang 1 at the center (floor or ceiling) to neutralize the EMF's, Hartmann and Curry Grids, Water lines in the room.
- When you hold it on your hands to Pray or Meditate it amplifies your light and love intentions.
- Aligns the Physical and the spiritual body.

# TENSOR RINGS, CUBITS & HOW USE THEM

## Full Sacred Cubit Tensor Ring Dowsing Rods 144 MHZ

DOWSING RODS

- These are tools for Dowsers specifically to balance the geopathic stresses of internal and external areas. To know more about it better to study dowsing, or check on YouTube because there are videos to show how they can be used.
- On a personal level, for a therapist, they can use it to check the patient chakras, if they open, close, find the auric field of someone, entity or animal. The correct process is with the individual standing up, with no shoes on.
- These tools of Divination can be utilized to ask any “yes” and “no” question, point directions for uses such as finding energy flow, which direction the desired object can be found.

## Tensor 1/4 Sacred Cubit Vortex Generator Harmoniser 144 MHZ Frequency Antenna

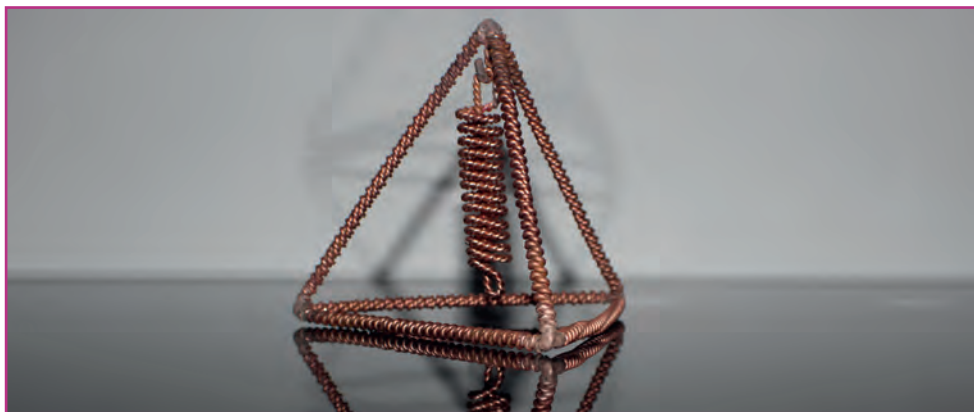

HARMONIZER

- Best to use indoors
- Has vertical energy and is best used for cleaning the air in the house; put next to it a clear glass of water and change the water every day;
- Needs to be 50cm's far from any wall or obstacle for better effects;
- Amplify its range by playing meditation music in 432 MHz, sacred solfeggio frequencies, or with singing bowls for example; minimum 2 hours a day for better results play it 24hours a day 7 days a week. This was will also clear the air of the outdoors area, like the chemtrails.

# TENSOR RINGS, CUBITS & HOW USE THEM

- Use it under a massage table, or therapy table, with a clear glass of water and change the water after each patient. You can also use a cotton cloth with few drops of aromatherapy oils in it to help the healing or clear the environment. Put the cotton piece in between the rings.
- Meditate with it using positive intentions, affirmations.
- Use it on the body of the patient, or on yours, to align each chakra.
- On outdoors if you go for a walk in nature bring the Harmoniser; I follow my central heart (4th chakra) and enter in communication with the Elementals of that area; they show me where to go and what do I need to do. Always different, always simple. The Harmoniser by itself does the work: clearing and creating harmony. If you wish you can sing to it, or play an instrument, like a tuning fork for example, tuned to 423 MHz; the pendulum can optimize the flow of the frequencies when you hold it over the Harmoniser and let it spin clockwise. Simple and effective!

**Tensor Tetrahedron Vortex Generator Harmoniser Frequency Antenna - Royal Cubit / Sacred Cubit (144MHz), Empowerment Cubit (188 MHz), Lost Cubit (177 MHz).**

3 SIDED HARMONIZER

- Use indoors and outdoors.
- The Royal Cubit has a vertical energy and is best used for cleaning the air; put next to it a clear glass of water and change the water every day;
- The Lost cubit has a horizontal energy and can be put outside too; is best used to reduce storm severity, restore water and soil, Increase size and quality of crops, to create harmony where there is animosity.
- The empowerment cubit is still under study, but it does all that the other cubits do and seems to be the best one to use under or above a healing table.
- Needs to be 50cm's far from any wall or obstacle for better effects;
- Amplify its range by playing meditation music in 432 MHz, sacred solfeggio frequencies, or with singing bowls for example; minimum 2 hours a da. For better results, 24hours x 7 days a week. This will also clear the air of the outdoors area, like the chemtrails.

# TENSOR RINGS, CUBITS & HOW USE THEM

- Use it under a massage table, or therapy table, with a clear glass of water and change the water after each patient. You can also use a cotton cloth with few drops of aromatherapy oils in it to help the healing or clear the environment. Put the cotton piece in between the rings.
- Meditate with it using positive intentions, affirmations.
- Use it on the body of the patient, or on yours, to align each chakra.

## Pyramid Unit with Sacred Cubit 144 MHz Personal Harmoniser with an orgonite base.

TENSOR PYRAMID WITH BASE

- Best to use indoors and leave it in a specific spot;
- It seems to work its way throughout the home, room by room, and once the energy field of the home has been saturated, it continues outward to the neighborhood, community, and beyond.
- Assists in raising one's vibrations, bringing light back into awareness, and overall harmony on a physical, mental, and emotional level.
- A spiritual and physical connector which brings in one's light energy and seems to allow a shift in one's DNA
- Reduces feelings of negativity such as anxiety and hate and exchanges them with love and positivity.
- Put next to it a clear glass of water and change the water every day;
- Needs to be 50cm's far from any wall or obstacle for better effects;
- Amplify its range by playing meditation music in 432 MHz, sacred solfeggio frequencies, or with singing bowls for example; minimum 2 hours a da. For better results, 24hours x 7 days a week. This will also clear the air of the outdoors area, like the chemtrails.
- The Personal Cubit Sacred Harmoniser and the orgonite will amplify the energy of the pyramid.

# TENSOR RINGS, CUBITS & HOW USE THEM

Tensor Field Orgone Energy Generator 144 MHZ Sacred Cubit 1/8, 1/4, 1/2, Full sacred cubit, lost cubit, empowerment cubit, royal cubit.

ENERGY GENERATOR

- Perfect in any size and cubit to carry with you anywhere. Can be folded like a bracelet and put it inside your bag;
- 1/8 cubit, best in 144mhz, can be used as a pendulum to dowse;
- Put 4 spheres (1/8 or 1/4 cubit) in the 4 corners of your bedroom - 2 of the 144mhz and 2 of the 177mhz – and 1 in 188mhz at the center of the room, floor or in the ceiling; this will cancel the geopathic stress lines (Hartmann and Curry Grid, ley lines, water lines, etc.); if you wish you can put inside the 4 corners spheres a piece of Black Tourmaline or Shungite Crystals and in the center sphere always a white crystals like Selenite;
- The 144mhz and 177mhz 1/8 cubit spheres are perfect to use as a necklace pendants;
- Use it under your, at center of your 2nd chakra, to protect you while you sleep and to provide healing and a better sleep;
- Place it under a therapy/massage table;
- Put inside of it any medicine, food, water or thing you want o to clear of bad vibes and to energize.
- Hold it while you meditate to amplify its intentions, wishes, dreams, for the highest good of you and ALL.
- It will align all the bodies and chakras, weather is under or on the top of each chakra for clearing and realignment.
- Remediate the harmful effects of EMF pollution.

# TENSOR RINGS, CUBITS & HOW USE THEM

## Infinite heart Infinity Pendant and half and quarter cubit infinite Sacred Cubit 144 MHZ

INFINITY PENDANT

- Wear the pendant near the heart chakra.
- Smaller pendant are perfect for a pet's collar.
- Hang the big one on the wall of your bedroom, or on the back of your bed.
- Put a larger one under the bed or therapy table to create a continuous flow of energy and protection.
- Connects the Soul to the physical multidimensional heart.
- Brings balance, love, abundance, infinite flow of all of that lives.

## Seed of Life 1/4 & 1/8 Royal Cubit Pendant and Full cubit, 144 MHZ

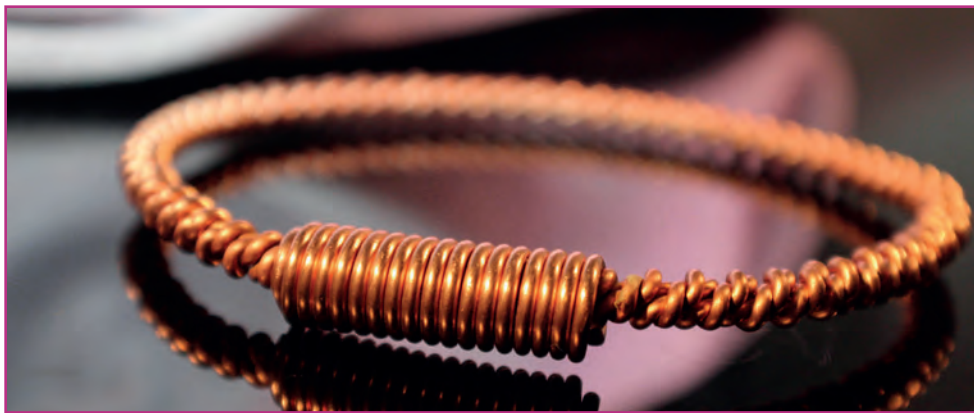

SEED OF LIFE

- Pendant Seed of Life 1/8 is very powerful and makes faster changes in all the bodies: Physical, Mental, Emotional, Spiritual.
- Can put it inside a Tensor Field Generator and hanging them on the ceiling of the bedroom to create a constant flow of beautiful harmonizing healing energies; or on any room you wish to have it or outdoors! This can be hung almost anywhere to rebalance the energies of even a haunted room.
- Put the 1/4 cubit seed of life flat under the Harmoniser; and/or the 1/8 to enhance their healing powers.

# TENSOR RINGS, CUBITS & HOW USE THEM

- Put the ¼ cubit under the Therapy table aligned to the heart chakra; on top use a clear quartz crystal or 1 green and 1 pink crystal together.
- Hold it with your left hand on a certain area of the body that needs healing, and with a tensor coil on the right hand, make circular movements following the clocks direction in order to pull of the bad energy and inject good energy in the area of issue.
- Hold the smaller or the bigger one, with your arms around it and align with the heart, and connect with it. It is essential that it be at the level of the heart.
- By wearing it for 1 month straight it will raise the vibration of the person on a cellular level.

## Sacred Cubit 144 MHZ Tensor Ring Bracelets Double or Single Wrapped

TENSOR BRACELETS

- They work very well on people that has balance and equilibrium problems like tinnitus for example; or people with articulations or muscles problems. It will maintain the body aligned and will send more flow of energy and oxygen through the hands and arms straight to both brain hemispheres, if using bracelets in both wrists.
- Relieves arthritis, rheumatism and other body pains.
- Double twist has more power, energy.

## Tensor Finger Ring Single or Double Wrapped Sacred Cubit 144 MHZ

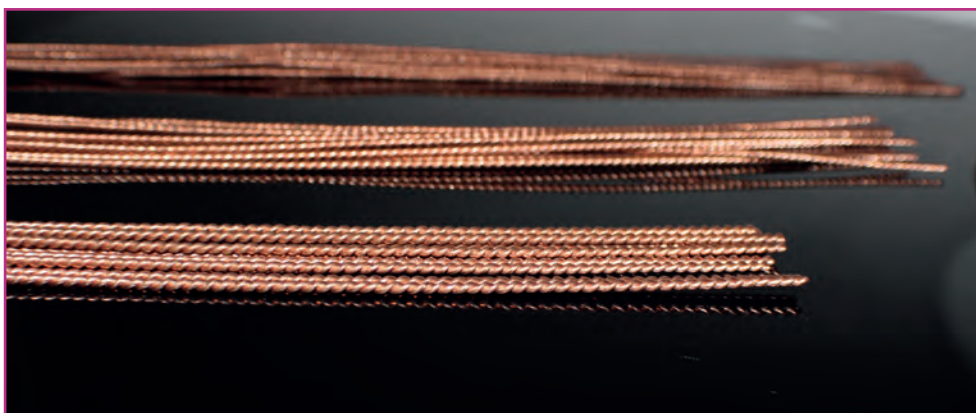

TENSOR FINGER RING

# TENSOR RINGS, CUBITS & HOW USE THEM

- It's the perfect way to get the right copper amount in your system through the skin. If the skin is green or blue after wearing the ring it means the body is in need of his mineral and it is absorbing it. If no discoloration then your body is not absorbing it. It's very rare that a person would be copper deficient but it does occur.
- The energy encompasses the finger and flows quickly to the body. Even those who normally do not feel energy, report a tingling sensation after wearing the ring. If you are sensitive to energy, you may need to wear for short periods of time until vibrations are raised to the ring's vibration.
- The rings are keyed precisely to the fundamentals of the planet and life on it.
- To add and balance energies in powerful, yet subtle, ways.
- Revitalize you physically.
- Activate your mind.
- Decrease mental stress.
- Increase self-esteem.
- Stir you from lethargy.
- Attract love.
- Protect against evil.
- Purify and cleanse both mind and body.
- Double Wrapped is more powerful.
- Helps create a wall of protection around the aura of the wearer.
- It may be very useful for those with special gifts, knowledge or abilities. Also, for those who have suffered any form of abuse.
- It can be worn on any finger and it may open and clear telepathic communication between the wearer to animals and to the spirit realm.

## Tensor Wands - 144, 177, 188 MH

### WANDS

- The Tensor Wand contains the same Tensor Field frequencies as the Tensor Rings.
